WELCOME

If you are searching for children's or adult curriculum for a new, or already established disability ministry, we have compiled this catalog just for you.

This catalog outlines all of our current curriculum offerings, bundle options to save money, and also includes a glimpse into series that are currently in development.

We have categorized our adult curriculum into "traditional" and "video-driven". Our traditional curriculum for adults and children is PowerPoint-driven. The video-driven series include everything that our traditional series includes, with the notable exception of a weekly video lesson.

All curriculum is a digital download and designed in such a way as to allow you the freedom to adjust it on the fly. Perhaps your class needs to take two or three weeks on a specific lesson. Maybe you want to include some additional activities or Bible verses so they can relate specifically to something your class is experiencing. The digital files give you the flexibility you need to best present the material to your class.

To read further details about our traditional and video-driven series, watch curriculum overview and lesson preview videos, learn more about what is included in every series, as well as watch other free videos to assist you in leading your class, [visit this page](#).

We frequently release new curriculum for adults and children. Please refer to our website to ensure you have the latest copy of our curriculum catalog.

Disability Is Beautiful

We believe we can change the face of stock photography.

1 in 5 people in the world live with a disability, so it shouldn't be difficult to find lots of images to represent this. However, that's not always the case.

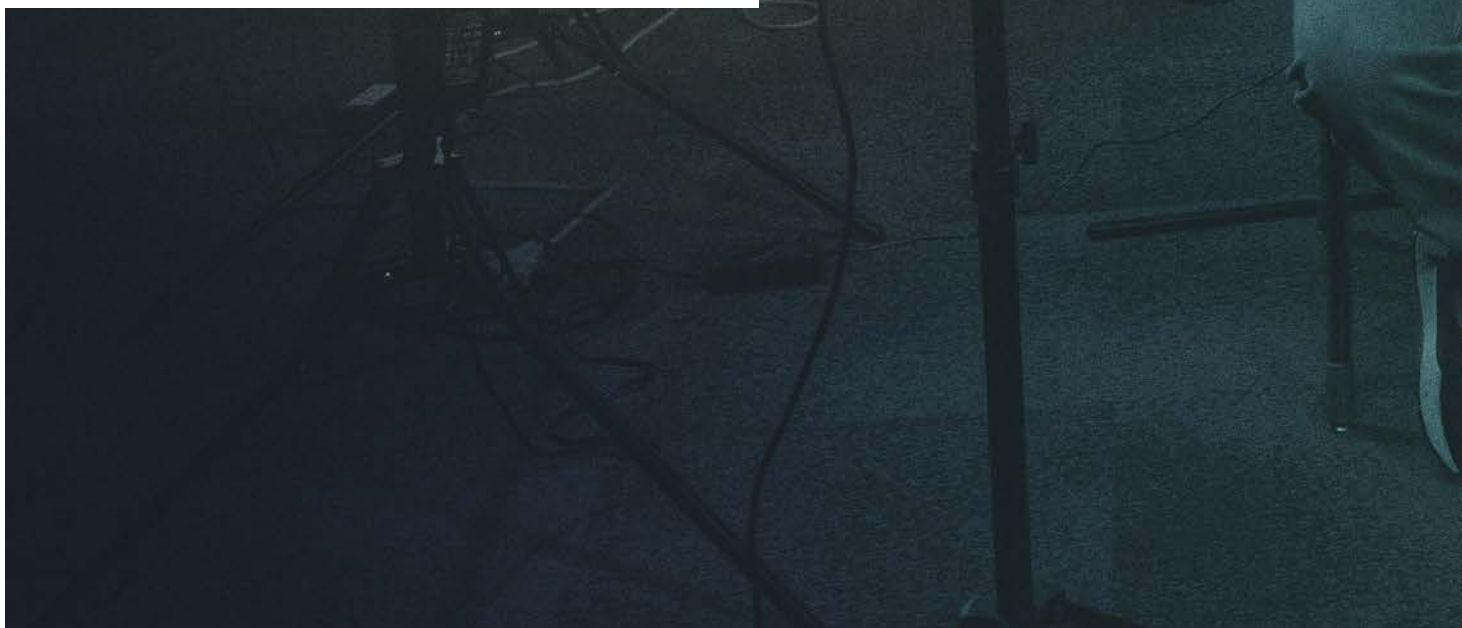

Because beauty belongs to everyone, Disability Is Beautiful provides an exhaustive library of art provided by the disability community. Your usage of this art celebrates the beauty in disability and fights the stigma and negative narratives that exist.
