

REMOTE RESEARCH PARTICIPANTS WANTED

Looking for parent & neurodivergent child pair to evaluate remote BST in teaching fire safety skills

My name is Jessica Surjonogo and I am conducting a research study to fulfill the requirements for a Master of Science degree in Applied Behavior Analysis at The Chicago School.

The purpose of this study is to **evaluate the effectiveness of remote Behavioral Skills Training (BST) in teaching fire safety skills to parents of neurodivergent children.**

During this study, you will be asked to participate in remote sessions where you will practice fire safety skills with your child.

The study will last approximately **4 to 6 weeks** and will take place via **Zoom**.

You may participate in this study if you:

1. Can converse in English
2. Have a child that is diagnosed with autism, ADHD or related condition
3. Having a reliable internet connection with a phone to use for remote sessions
4. Able to participate **up to three sessions (30 to 45 minute each) per week with a total of up to 10 sessions**
5. Able to print informed consent document at home
6. Comfortable being recorded during remote sessions

Criteria for CHILD participants:

1. Between the ages of 3 and 17 years old.
2. Have been diagnosed of autism, ADHD or related conditions
3. No hearing, visual or physical limitation preventing participation

Compensation: One ticket for a raffle for every completed session. At the end of the study, the tickets will be entered into a drawing to win one of three \$100 gift cards of your choice.
